

# Internship or student work Reporting

Are you looking for an internship for at least 10 weeks? We are giving you the chance to put your theoretical knowledge into practice.

## 1. description

You will work on practical and sustainable projects which overcome strategic challenges of Coreso SA.

The intern will also enjoy an international experience while developing professional skills with concrete tasks. This internship will allow the student to bring their classroom knowledge into a professional work setting and broaden their knowledge through hands-on application in a professional environment.

By inserting historical data into the system, you will test thoroughly the new application. Your responsibility will be to give user-experience feedback to the development team and to support the operational transition.

Your tasks will include:

- Testing of a new internal reporting application
- Providing feedback on user experience
- Re-inserting historical data
- (optional) Support operational transition by creating procedures and training material
- (optional) Support creating statistical reports.

Send your CV and application form to [contact@coreso.eu](mailto:contact@coreso.eu).

## 2. Prerequisites

Ideal candidates will be detail-oriented, organized and possess a professional work ethic. The person will enjoy an international experience while developing professional skills with concrete tasks.

This is intended to describe the general nature and level of work, and this is not an exhaustive list of all responsibilities, duties, and skills required. Interns may be required to perform duties outside their normal responsibilities.

Communication skills:

- Language: French and/or English
- Excellent written and verbal communication, strong editing skills
- Self-motivated, detail-oriented with strong written, verbal & organizational skills
- Excellent computer skills with experience in social media & Microsoft Office
- The ability to work independently and with others
- Dependability, flexibility, and ability to maintain confidentiality
- The ability to work well under pressure and meet deadlines
- Openness to learning and growing within the internship experience

### 3. Conditions

The intern will enjoy an international experience while developing professional skills with concrete tasks.

This internship will allow the student to bring their classroom knowledge into a professional work setting and broaden their knowledge through hands-on application in a non-profit environment.

- Reimbursement of travel costs or rental charges if you come from abroad.
- Hands-on experience to build portfolio and professional contacts.
- School credit, depending on the requirements.

### 4. About Coreso

The mission of Coreso is to proactively support Transmission System Operators to ensure Security of Electricity Supply in Europe. Located in Brussels, about fifty engineers, seconded from their companies, combine their expertise 24 hours a day, 7 days a week to anticipate the operation both in the short term and the long term, from a year ahead until Intraday (few hours before real time)

Founded in 2008, Coreso encompasses nine European operators, which are also its shareholders (Elia in Belgium, Eirgrid in Ireland, 50hertz in Germany, National Grid in the UK, REE in Spain, REN in Portugal, RTE in France, SONI in Northern Ireland, Terna in Italy).

Within the European context of progressing market mechanisms, continuous growth of renewable energy, ambitious grid development and further harmonization, new coordination challenges are numerous. Coreso aims to build up, together with all partners, the adequate coordinated operational processes to cope with these game changers. To secure operation of the European electricity system represents a truly international challenge.
